Principal Matters

Wednesday, March 16th

School Council:
At the council meeting last night we were pleased to welcome Tony and Andrew in their re-election and Garry F as a returning councilor after a break.

Now that the school has a few more families, it was decided to increase council size by one member and create a Community Member position. This was especially to address a need on council for a person with secretarial skills. I am pleased to advise that Don Jones has been invited to fill this position.

There was a report on the progress of our current projects. It is expected that the BBQ area and the new shade sails will be completed in the next few weeks. We also heard a report outlining the extensive progress on a second water supply to the school to enable the maintenance of gardens and lawn areas. Council will be sending out invitations to parents and the community when we have an opening ceremony for these new facilities.

Parents and Friends:
We would again like to welcome all new and old families to the P & F committee for 2016. With some great new ideas, we look forward to a very productive and eventful year. This year we hope to involve more families with the goings on of the P & F committee, with everyone welcome to come along, for a little or a lot.

The Easter Raffle is looking good, but still after any donations to add to the prize baskets.

Raffle tickets went out last week and will be drawn on the last day of term. Could you please have tickets returned to school by Wed 23rd.

On Thurs. 17th P & F will be catering for the excursion to the 52 Storey Tree house performance. We will meet at the school between 8.30 - 9 am to prepare lunch for around 200 students. We will then travel to the Bendigo Aquatic Centre to serve lunch 11.30a.m.. Any help to prepare or serve is most welcome.

There will also be a school breakfast on the last day of term, with all families invited to come along. It’s a great chance to meet and get to know each other.

Thank you for your ongoing support

P & F Committee

IMPORTANT REMINDER FOR TOMORROW:
The excursion tomorrow to see the play 52 Storey Tree House also includes a visit to the Bendigo Pool in the morning. It is essential that students have their bathers, towel, hat and any other accessories to participate in this activity.

Any students who prefer not to swim or are without bathers will be able to join in some games on the grass next to the pool.
